Cover Letter

Dear hiring manager,

I'm a walking UX UI encyclopedia thirsting for untangling ambiguous complexity through research, result-driven design, and fast iterations towards simple and elegant solutions.

Solving diverse challenges over **17 years in the design industry. Six years as a company UX UI leader across diverse organisations;**¹ Logistics and freight forwarding. ² Large workforce guidance (airports, **hospitals**, shopping malls, security, etc.) through customised software implementing IoT technology ³ Luxury property development ⁴ Fast-paced creative agency. **Improving and building from scratch, software, websites and apps across smartwatch, kiosk, web and mobile devices.** See my [testimonials](#).

Background in high-tech, enterprises, supply chains, reporting, tracking, e-commerce, advertising, B2B, B2C, and fast-paced demanding environments. Worked on 28+ design systems, 400+ developer ready prototypes, 1200+ usability tests, and 26+ user research observations. Mentoring, teaching better UX methodology, and video recording usability tests. **Certified knowledge in front-end web development. I also dive beyond visuals and UX UI, into persuasion influence and content strategy.**

Highlighted projects:

- **Led scalable UX/UI for a complex B2B global supply-chain platform**, balancing diverse stakeholder goals, technical constraints, and user needs across **22 major projects**. [AI doc extract validation and data updating](#), onboarding, introduced plan-based features and promos to revenue from software alone, custom report building, shipment tracking, various template builders, conditional automations, and a full Purchase Orders overhaul.
- **Designed a custom hospital kiosk app** for sleep-deprived and highly stressed staff to dispatch and track emergency tasks. Request to live first release in 2 weeks.
- **Led UX UI for cutting-edge IoT sensor and tracking software and 10+ android apps**, guiding large workforces across airports, hospitals, malls, security teams, etc. Eliminated costly operational issues and saved hundreds of labour hours daily. Once installed, the flagship platform raises productivity over 100% on average. **140+ Prototypes, 6 Design Systems, 88+ features released.**

Experienced in agile iterations, MVPs, R&D, responsive prototyping, testing, complex user flows and design hand-offs, collaborative workshops, branding and mentoring. Love a challenge.

View my [resume](#) below, [design writing](#), and my soon-to-be updated [online portfolio](#) to explore my mastery of design solutions. Eager to craft thoughtful, user-centred solutions that build real momentum.

Kindest regards, Eugene Stadnichenko

Testimonials

[read more ↗](#)

“
Eugene is about as talented as they come! A great example of when talent meets hard work. Stakeholders were always eager to compliment the designs. It was clear to me how much confidence it gave them in the product when they saw his intuitive designs with amazingly professional presentation.”

Reece Knight **Senior Software Engineer**

Daelibs

“
Eugene is fantastic to work with. **Creative, strategic and customer centric in the way that he approaches any project.** I really enjoyed working with Eugene on UX/UI projects. A great asset for any team.”

Jeff Dermann **Online Experience Manager**

Cooper & Westwood Advertising

“
His bright, vibrant energy instantly puts people at ease and makes collaboration feel effortless. He never keeps knowledge to himself. He's always sharing, explaining, teaching, and genuinely wanting everyone around him to grow. **He makes design feel accessible, no matter someone's role or skill level.**

“
His talent is unreal. He combines deep theoretical understanding with sharp intuition and a very refined visual eye. Managed to lift the quality of everything he touched.”

Olivia Balderston **Product Marketing Manager**

Explorate

“
Significantly enhanced our projects, particularly in improving the UI/UX of our legacy software, but also showcased his remarkable ability to **swiftly grasp complex systems.**”

Jerry Lo **Scrum Master / Senior Developer**

Daelibs

“
Not only is he extremely talented with all things design, but the level of passion and excitement that shines through in his work and attitude was contagious throughout the office. Absolutely loves what he does and brought so much value to the business and people around him.”

Letters of Recommendation part 1

“

To whom it may concern:

I had the pleasure of working with Eugene Stadnichenko during 2022-2023 at Daelibs Pty Ltd. In this work reference I would like to give you an idea how highly I regard Eugene, and why.

I've worked for over 30 years continuously as a programmer and as a business analyst, and as a data analyst. Daelibs Pty Ltd is quite a cutting edge company, implementing customised Android applications, Web Applications, Bluetooth transmitters and the like. The Daelibs product suite provides intricate location tracking which, in turn, allows large corporations to keep track of employees on every level and in every point throughout their facilities.

During my time at Daelibs, **Eugene impressed me immensely with his intelligence, his communication skills, his work ethic, and his creative design skills. Every single week, even after 35 years in the IT game, I would learn something new from him regarding User Interface design.** And I loved that.

Eugene has the ability to design wonderful User Experiences using typical platforms like FIGMA etc. He made my specific role at Daelibs so easy. If I ever had a need to question his design decisions he would explain the psychology of why users prefer certain things over others. I can't recall how many times I said "OK, that makes sense..." .

In every possible way, it was a joy and a pleasure to work with Eugene. He is a real team player, with a delightful sense of humour. He also has natural empathy for people. Put another way, he's just a class act. If you are considering hiring Eugene, **rest assured you're going to get a true quality employee.**

Indeed, I rather think he's easily in the top 15% of current Sydney or Melbourne market rates regarding his potential employment remuneration. **He's very fast and very consistent.**

”

Kind Regards, Ivan Julian Vetsich

Letters of Recommendation part 2

“

To whom it may concern,

“

I have been so impressed with all of Eugene's work while he's been with us; I can honestly say Eugene is the **best designer that I've worked with and I have appreciated every moment he was with us.**

The **developer team has always been hugely positive about all of Eugene's work** and it's been really great for me to have someone leading the design that I'm so closely aligned with to show them how well things can flow when you've got the right people setting the UX and UI processes.

Eugene and all his hard work will be sorely missed. Would highly recommend him as a top designer.

David Harrison

Chief Technology Officer Explorate

“

To whom it may concern,

This letter is to provide my recommendation and support for Eugene Stadnichenko. Eugene worked at Explorate for just under two years, reporting directly to me as Director of Growth. He was employed as a product designer responsible for the user experience and design of our B2B software product.

During my time working with Eugene he was always **hard working, enthusiastic and a strong team player**. Eugene took the time to ensure **all his work and designs were accompanied with documentation, feedback and were within the capabilities of our development team**.

Eugene has a strong attention to detail, **deep empathy for the end user and a wide knowledge of design best practices**. He is always eager to learn more about users, the industry and the latest developments in technology and designs. Through this passion Eugene was able to provide **well designed, well considered plans for our product which lead to a material improvement in our end user experience**.

“

Due to an internal restructure Eugene's role was made redundant but he is a strong candidate and I would welcome the opportunity to work with him again in the future.

“

If you would like to discuss any of the details of his work, please do not hesitate to contact me on the details below.

Elliot Smith

Director of Growth Explorate
